CAMPIONPLATT

COUNTRY MANOR SOUTHAMPTON, NY

We combined a full renovation and expansion for this 1940's clinker brick style house in the historic village section of Southampton. The client requested a sophisticated summer retreat to display an eclectic art collection while providing a relaxed entertaining atmosphere. The theme evolved to a country "lodge" featuring a whimsical play on traditional hunting elements such as antler curtain rods, rope finials and a distinct Asian restraint to compliment the clients' own lifestyle. The turret tower was converted to a game room and a glass roofed terrace connects all the entertaining rooms for a year-round indoor-outdoor entertaining experience set against the adjacent Japanese rock garden.
