

MANHATTAN HOUSE

CAMPIONPLATT

MANHATTAN HOUSE
NEW YORK CITY

21st Century American elegance embodies Campion's take on Grace Kelly for a Manhattan House apartment. Channeling historic details from this newly landmarked upper east-side residential icon designed by Gordon Bunshaft, Campion invoked the spirit of the building in its sparse modern detailing with an emphasis on comfort and approachability. Wrapping the apartment in textured and sparkling venetian plaster, he employs soft curving forms in shimmering soft textures to define the rooms. The soft elegant sheen of the jewel-like metal finishes and rich wood luster accent the decidedly royal theme, harking back to the building's famed early tenants.
