ARTS & CRAFTS APARTMENT FIFTH AVENUE, NEW YORK, NY

Interpreting themes from the Art's & Crafts period with coved and coffered ceilings, we altered the scale and materiality for this celebrity client, resulting in an open-loft feeling over the Central Park reservoir. The program required a simple backdrop for an assembly of eccentric period furniture, art and sculpture. The kitchen was doubled in size to create an alternate entertaining space replete with walnut butcher block counters, cabinets and a flexible pulley lighting system reminiscent of old European gymnasiums.
